As ESMS and its employees, we aim to comply with national and international legal legislations and regulations, and to create a healthy and safe working environment within an Occupational Health and Safety Management System based on continuous improvement.

Within this scope we are determined to;

- Comply with occupational health and safety legislation and administrative regulations, to create a healthy and safe working environment, believing that all kinds of occupational accidents and occupational diseases can be prevented, taking all necessary precautions by determining in advance all risks that can disrupt the health integrity of our employees and all related parties with a systematic and preventive approach, and make this approach sustainable,
- Persuade and monitor visitors, customers and employees to follow the precautinary processes explained in the working orders and the occupational safety rules to prevent accidents and faulty behavior that can lead to accidents,
- Use safe equipments and appropriate technologies for a healthy and safe working environment,
- Ensure the safety of our employees for their own health and happiness of their family since our main goal is to work safely, efficiently and with quality,
- Maintain the continuity of our Integrated Management System, which has been established and implemented in this direction as our Occupational Health and Safety Policy.
